## Farmington MSA

The New Mexico Department of Labor's Economic Research and Analysis Bureau produced this pamphlet to serve the needs of people in the Farmington Metropolitan Statistical Area, including all of San Juan County. It is designed to help job seekers and those just looking for general wage information. The pamphlet features typical starting wages and a broad range of average wage information on almost 200 occupations. About two out of three people in the Farmington Area work in one of the occupations listed in this pamphlet.

Occupations are consolidated into major groups, with each group containing workers with similar job duties or work environments. Typical starting wages are rounded to the nearest \$10 and are expressed as an annual wage. To convert annual wages to hourly wages, divide the annual wage by 2080.

Average wages are expressed as annual wages rounded to the nearest \$10 in the two columns labeled "About half of the workers in this occupation earn between." These two columns represent the 25th and 75th percentiles of wage data for the occupation. The bounds of the 25th and 75th percentiles cover the middle of the range of wages for each occupation and should help you get a sense of what most people in the occupation are earning. The wage estimates are current as of May 2009.

If you need wage information on an occupation that is not covered in this pamphlet or would like more detail on one that is, visit the Department of Workforce Solutions' website at:
