1. Is there an in-house IT manager for the Workforce Solutions web and job pages, who can work with us to evaluate interactivity with your website and hiring tools?

Yes - the New Mexico Department of Workforce Solutions will provide IT personnel as required.

2. The summary scope of work for phase 2, describes “an action plan” and a “small demonstration or pilot program”, “activities include development of a platform” to “facilitate relationship building and statewide information sharing on employment, things to do, places to live, educational institutions, as well as other opportunities.” To accomplish this, will WS make the connections needed in the Department of Tourism, the Economic Development Department, the Higher Education Department, and other agencies?

Yes - NMDWS will facilitate the connections process, however the awarded Vendor will manage the program.
